FUTURA

UNISEX | 100% POLYESTER | SLIM FIT

SHORT + LONG SLEEVES

The Stanno Futura Shirt is a single colour classic looking shirt with modern lines. Designed to accentuate the bodyshape.

Specifications

- 100% polyester ClimaTec
- seamless mesh material on shoulders and sleeves
- v-neck collar made of soft touch material
- hem finished with a small banding at the front
- sleeves trimmed with a soft cuff

*The Futura Shirt
is very suitable for printing
(DEALER TAKES CARE OF PRINTING).

The mesh panels under the arms allow extra freedom of movement and breathability.

Double layer v-neck collar made of soft touch material.

CAMPIONE

UNISEX | 100% POLYESTER | SLIM FIT

SHORT + LONG SLEEVES

The Stanno Campione Shirt has a drop needle fabric which creates a modern design with a vintage outlook. The shirt also features an asymmetrical collar.

Specifications

- 100% polyester ClimaTec
- pinstripe material (drop needle fabric) on the body
- mesh material on the sides
- round, asymmetric collar made of fine rib and plain shell material
- sleeves trimmed with a soft cuff

*The Campione Shirt is very suitable for printing
(DEALER TAKES CARE OF PRINTING).

The mesh panels under the arms allow extra freedom of movement and breathability.

Pinstripe material (drop needle fabric) on the body.

CAMPIONE

LADIES | 100% POLYESTER | SLIM FIT

SHORT SLEEVES

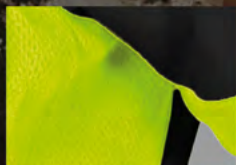

The Stanno Campione Shirt Ladies has a drop needle fabric which creates a modern design with a vintage outlook. The shirt also features an asymmetrical collar.

Specifications

- 100% polyester ClimaTec
- ladies fit
- pinstripe material (drop needle fabric) on the body
- mesh material on the sides
- round, asymmetric collar made of fine rib and plain shell material
- sleeves trimmed with a soft cuff

The Campione Shirt is very suitable for printing (DEALER TAKES CARE OF PRINTING).

The mesh panels under the arms allow extra freedom of movement and breathability.

The asymmetric collar with two colours and two materials gives the shirt an invincible appearance.

LIGA

UNISEX | 100% POLYESTER | SLIM FIT

SHORT + LONG SLEEVES

The Stanno Liga Shirt is inspired on a contradiction. It's a design that contains two elements: the round shapes of retro and the angular shapes of modernity. This results in a modern looking two colour shirt with a classic design.

Specifications

- 100% polyester ClimaTec
- light weight and fast drying
- mesh material on the sides
- ribbed cuff and collar
- easy care

*The Liga Shirt
is very suitable for printing
(DEALER TAKES CARE OF PRINTING).

The mesh panels under the
arms allow extra freedom of
movement and breathability.

Ribbed cuff and collar.

TORINO

UNISEX | 100% POLYESTER | SLIM FIT

SHORT + LONG SLEEVES

The Torino Shirt has a futuristic outlook with high technical detail. Similar in design to our successful Forza Teamline.

Specifications

- 100% polyester ClimaTec
- light weight and fast drying
- ribbed collar
- sleeves trimmed with a soft cuff and a small area in shell material
- a special seamless mesh material on the sides

The Torino Shirt
is very suitable for printing
(DEALER TAKES CARE OF PRINTING).

The mesh panels under the arms allow extra freedom of movement and breathability.

The Torino shirt contains a printed Stanno logo in the middle of the chest. There's a printed stadium logo at both sleeves.

THERMAL SHIRTS

UNISEX | 100% POLYESTER

SHORT + LONG SLEEVES

With flat seams for extra comfort.

ClimatePoly fibre has thermal qualities and is easy to wash. The unique knitting methods result in a very fine-grained structure on the inside of the shirt, and an open structure on the outside. This provides an optimal transportation of body moisture.

FIERO

MICRO SUIT [JACKET + PANTS]

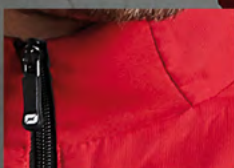

*The Fiero Micro Jacket and Centro Pants are very suitable for printing (DEALER TAKES CARE OF PRINTING).

STANNO

The Fiero Micro Jacket contains Stanno embroidery at the chest and on the backside of the collar. There's a printed stadium logo at both sleeves.

The Fiero Micro Jacket contains rib material on the collar, cuffs and waist. The material is ideal in these strategic places, because it stretches easily but also always stays in shape.

FOAM MATERIAL

HYPER FOAM Hyper foam provides an excellent grip in both dry and wet conditions. In wet conditions the moisture is absorbed by the foam which greatly improves the grip.

SUPER SOFT PROFI AQUA FOAM Aqua Foam offers optimal grip in wet conditions. The soft and more open foam structure takes up water, which – in comparison to other types of foam – provides a 25% better grip. Additionally the Aqua Foam gloves contain an extra shock absorbing function to reduce the impact of hard shots.

SUPER SOFT PROFI FOAM The changing needs of professional keepers require that the characteristics and quality of the foam continually develop. Super Soft Profi Foam has excellent properties for grip in both dry and wet conditions, and it also offers excellent cushioning. The use of the latest materials ensures durability and optimal comfort.

SOFT FOAM Soft Foam provides a reliable grip and excellent cushioning. Soft Foam ensures maximum ball control and optimal comfort.

FOAM PROPERTIES

HYPER FOAM	SUPER SOFT PROFI AQUA FOAM	SUPER SOFT PROFI FOAM	SOFT FOAM
GRIP DURING DRY WEATHER CONDITIONS	GRIP DURING WET WEATHER CONDITIONS	CUSHIONING	ABRASION RESISTANCE
The adhesive properties of the foam are decisive for an optimal grip and the best performance. The weather is a big influence on the properties and performances of the foam material. Playing during dry weather requires specific foam components for optimal results.	Moisture, rain and wet conditions affect the grip and require additional components for a better grip. A softer and more open foam structure absorbs the water and is very suitable for wet weather conditions.	As well as grip, cushioning is an important factor in determining the most suitable goalkeeper gloves. The softer and thicker the foam, the better the impact of the ball can be absorbed. Also the thickness of the basic material of the gloves determines the amount of cushioning.	Foam is a very soft material that needs special treatment. Regular ball contact leads to wear and tear of the foam. The degree of wear is determined by the surface structure and the density of the foam material. A more coarse and closed foam structure will lead to less wear.

FH GOLIATH

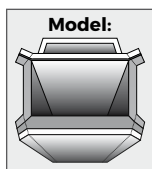

SENIOR PROFESSIONAL GOALKEEPERS GLOVE

SIZES: 7 - 7,5 - 8 - 8,5 - 9 - 9,5 - 10 - 10,5 - 11 £ **69,99**

SHINGUARDS

EFFECTIVE PROTECTION AGAINST INJURIES

STANNO USES HARD SCALES FOR THEIR SHINGUARDS, WHICH DIVIDE POINT PRESSURE OVER THE COMPLETE SURFACE AND PROTECT THE LOWER LEG FROM INJURIES.

THE HARDER THE SCALE THE MORE THE PRESSURE IS SPREAD OVER THE ENTIRE SURFACE.

THE BEST SHINGUARDS HAVE A HARD SCALE, A SOFT INNER, AND ARE ANATOMICALLY DESIGNED TO FIT LEFT AND RIGHT LEG.

PRO GUARD SHINGUARDS

FIND MORE ON
STANNO.COM

ClimaTec material is a comfortable, warm, lightweight material, fast drying and easy to maintain. The advanced micro fibres transport the body fluids and keep you comfortable in many weather conditions.

ClimatePoly fibre has thermal qualities and is easy to wash. The unique knitting methods result in a very fine-grained structure on the inside and an open structure on the outside. Moisture is transported optimally and quickly.

ComfortTec material is a very comfortable material. It keeps the body warm with its soft brushed inner.

MotionTec material is comfortable, lightweight and tight fitting because of the yarn used and the knitting technique. The fabric has a high stretchability because of the high level of elasticity in the product. It's functional and durable, perfectly suited for indoor sports.

TTS is a highly functional and durable material. Extremely suitable for strenuous exercise. The material is easy to wash which simplifies maintenance.

Sportpolyester has a thermal effect and is easy to wash, which simplifies maintenance. It protects against cold wind and is a great combination of a functional and durable product.

WovenTec increases the wearing comfort and provides a soft feel. The material has a luxurious appearance. WovenTec products are not only functional during sport activities but also perfectly suitable for presentations.

Coated articles with taped seams, including rain gear and all weather jackets, are finished with a special coating. Depending on the type of coating the articles are waterproof, windproof or water-repellent.

Marfil® is the brand name of a polypropylene fibre. Polypropylene is a thermal fibre with the lowest specific weight available. It is moisture resistant and moisture transportable. Polypropylene is 100% real colour, non-shrinking and recyclable. It gives perfect comfort to your feet and avoids skin irritation. Stanno specifically uses polypropylene for high quality sports socks.

SIZING CHART

These sizes are only to be used as a guide. Careful attention should be paid to garments with a "Slim Fit" icon which are obviously a smaller, slimmer fitting.

Sampling is strongly advised if you are unsure about sizes. We cannot accept any liability, or return of goods, if garments are decorated and then found to be unsuitable.

On photographic reproduction and print some colour changes may occur between pictures and original products. We reserve the right to make product/technical changes (in design, colour, function and material), which we feel, will make for improvement of the product. We will not accept any responsibility for printing errors in the catalogue! All Stanno products are suitable for printing, front or back.

Garment care: Stanno products are made to the highest standards and are subject to strict quality control procedures. Garments however can discolour due to substances such as mud and grass, liniment or oil, and of course perspiration, all of which may not be fully removable by washing. The extent of discolouration can be greatly reduced by following a few simple procedures. Soaking and/or washing of the garment in water and detergent as soon as possible after use can reduce discolouration, using at least the same volume of water as the garment being treated. Always follow detergent manufacturers instructions, especially those intended to tackle heavy stains and avoid products containing bleach. Stanno International cannot accept any liability for discolouration or damage to garments resulting from staining caused by elements foreign to the materials used in manufacture.

All catalogue prices are recommended prices inclusive of VAT.

The copying of products, in whatever form that may take, is forbidden without the prior written consent of Stanno International. Stanno International reserves the right to modify product specifications and prices at any given time.
